

VALENS[®]

Valens International is a manufacturer of innovative food supplements, designed to meet the challenges of modern lifestyle and health aware consumers. Our mission is to improve human health and well-being with essential products which enable simple use and high added value for the customer. Besides the strategic location in the heart of Europe, our biggest competitive advantage is our flexibility and ability to adapt to our clients' needs.

Company history ...

2005

A team of brilliant Slovenian scientists developed an innovative **water-soluble form of Coenzyme Q10** with superior bioavailability. Valens took over the marketing of the invention and named it Q10Vital®. **Q10Vital®** was the first ingredient worldwide that enabled liquid CoQ10 formulations.

2007

Quvital®, a line of premium quality food supplements with water-soluble CoQ10 was introduced to pharmacies in Slovenia.

2008

Valens initiated a clinical study, which proved **superior bioavailability** of Q10Vital®. This new discovery led to a new breakthrough in global sales of Q10Vital® as a raw material as well as finished products.

2015

Valens developed a first **oral spray** with **vitamin D**, which was awarded the **most innovative food supplement** by the Nutrition Institute of Slovenia.

2016

Another one of Valens clinical study proved beneficial effects of Q10Vital® on **skin beauty**, which led to development and launching of new beauty products.

2018

The most complete **line of oral sprays** became a unit for itself. Valens decided to offer **private label products** and launched a new division.

2019

Valens Premium Collagen Complex, liquid supplement with Q10Vital® and collagen was launched, marking a pivotal point for our business and a breakthrough in the industry of beauty supplements.

2020

Another groundbreaking clinical study proved **synergistic effects** of collagen and CoQ10. Line of **100% natural** products was introduced.

... and now

2021

Today Valens is an ever-growing company with over 20 employees and more than **40 products** in its portfolio. Our products are currently available in **5 continents** and our global presence is constantly expanding.

Product range

We offer a wide selection of high-quality food supplements that cover a broad range of potential customers. While **oral sprays** and **liquids** are our main focus, we also offer capsules and powders. Our product list stretches from **basic** to **complex** formulas, which focus on excellent taste, to the line of **all-natural** products, which are suitable for babies, kids and vegans.

Quality standards

Our production plant is GMP certified, and our business process runs in compliance with **ISO 9001:2008** standards. The effectiveness and quality of our products is often proven with independent **clinical trials and studies**.
